

## To access the Patient's Admission Status -

1) User groups needing to access the Patient Admission Table will need to have the permissions set under their Permission Group. Permissions are adjusted by going to: CubHub Bear> Permissions> Double click the Permission Group> Scroll down to Patient> Click the boxes beside Admission> Save by clicking green square in top right corner.

2) The users will need to log out and back in to make the permission effective.

3) Users can then go to: Patient Profile> Service Details> Click the calendar icon under Admit Status> + to add/change Patient Status> Select Status> Save
